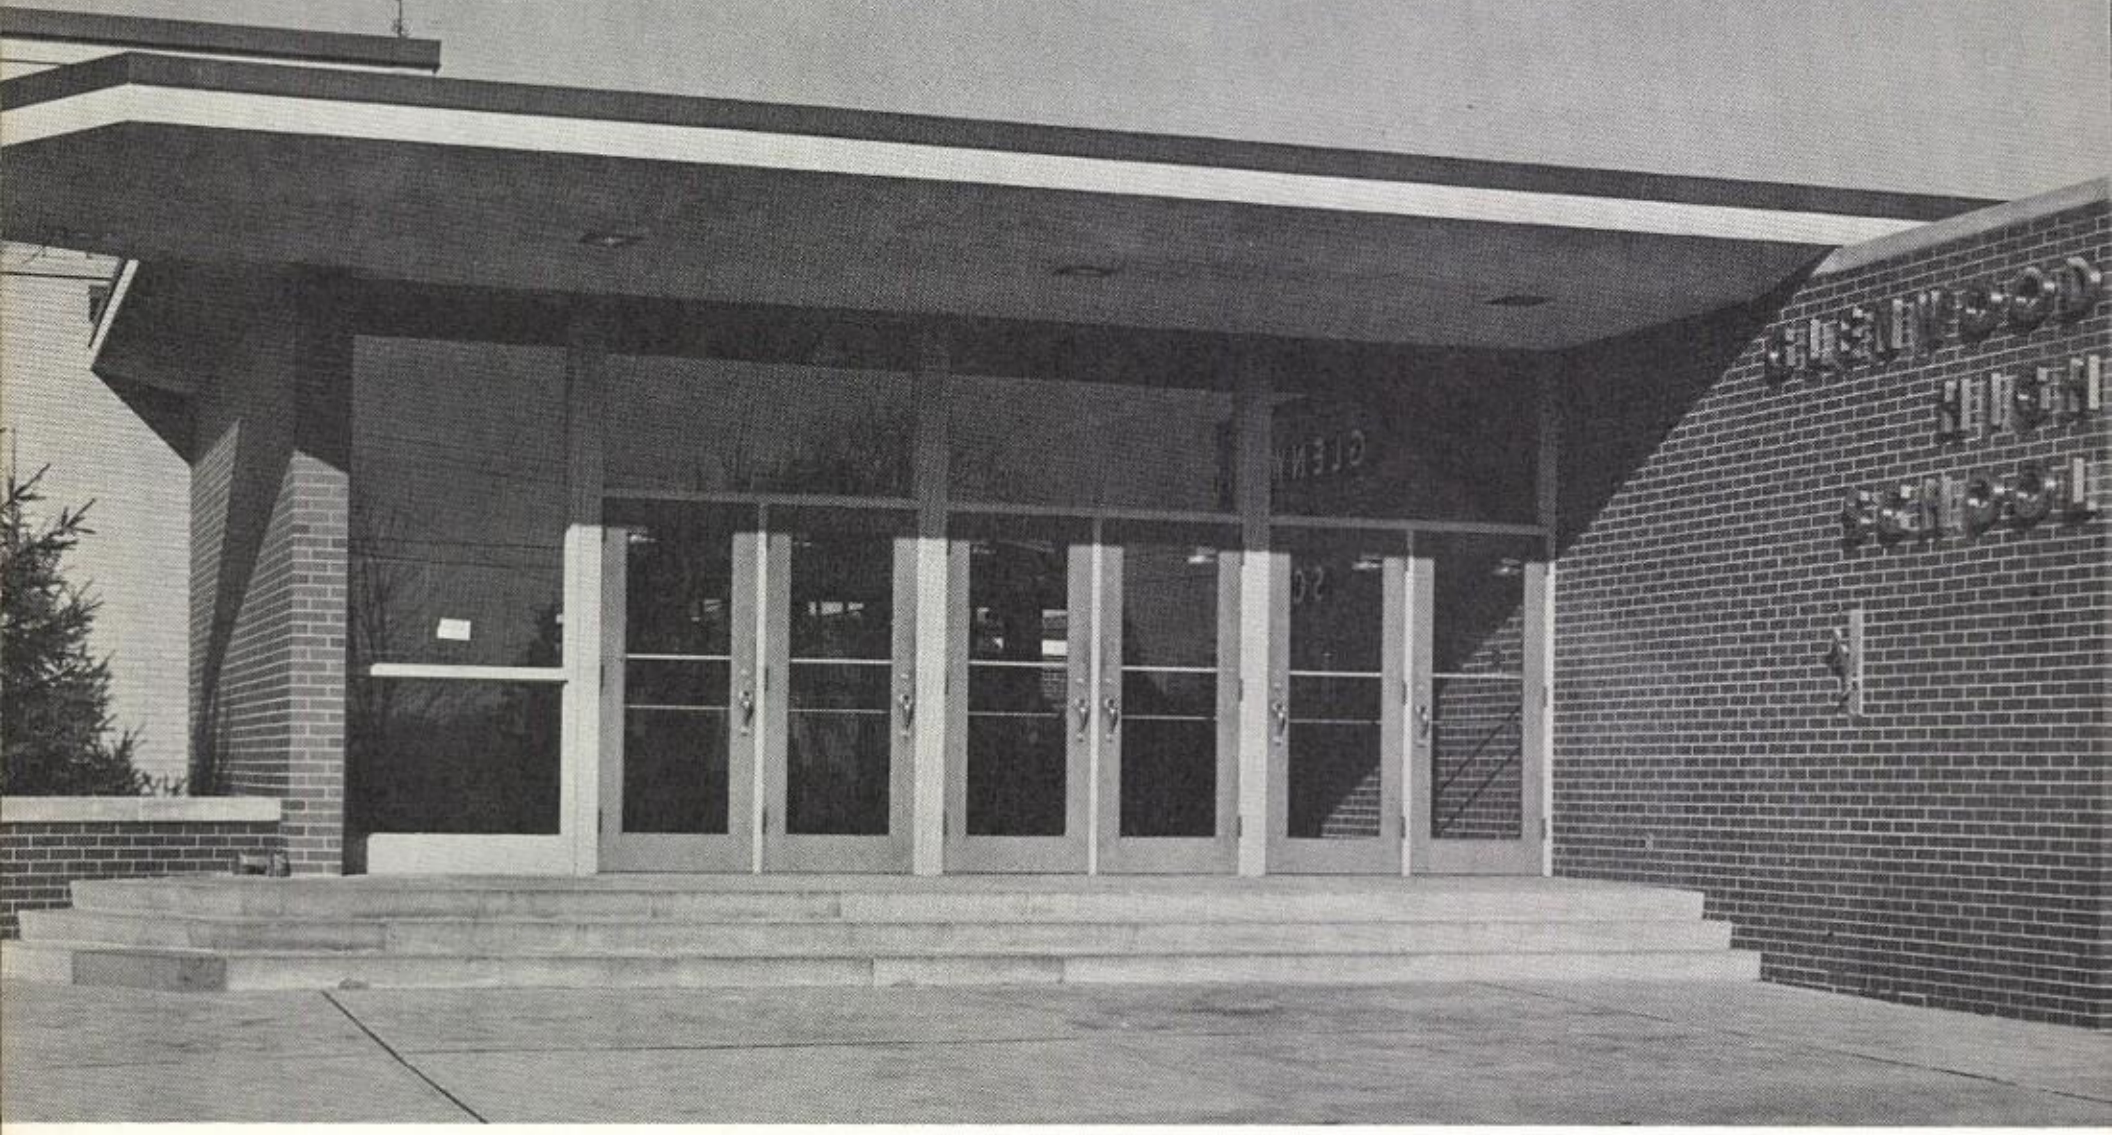
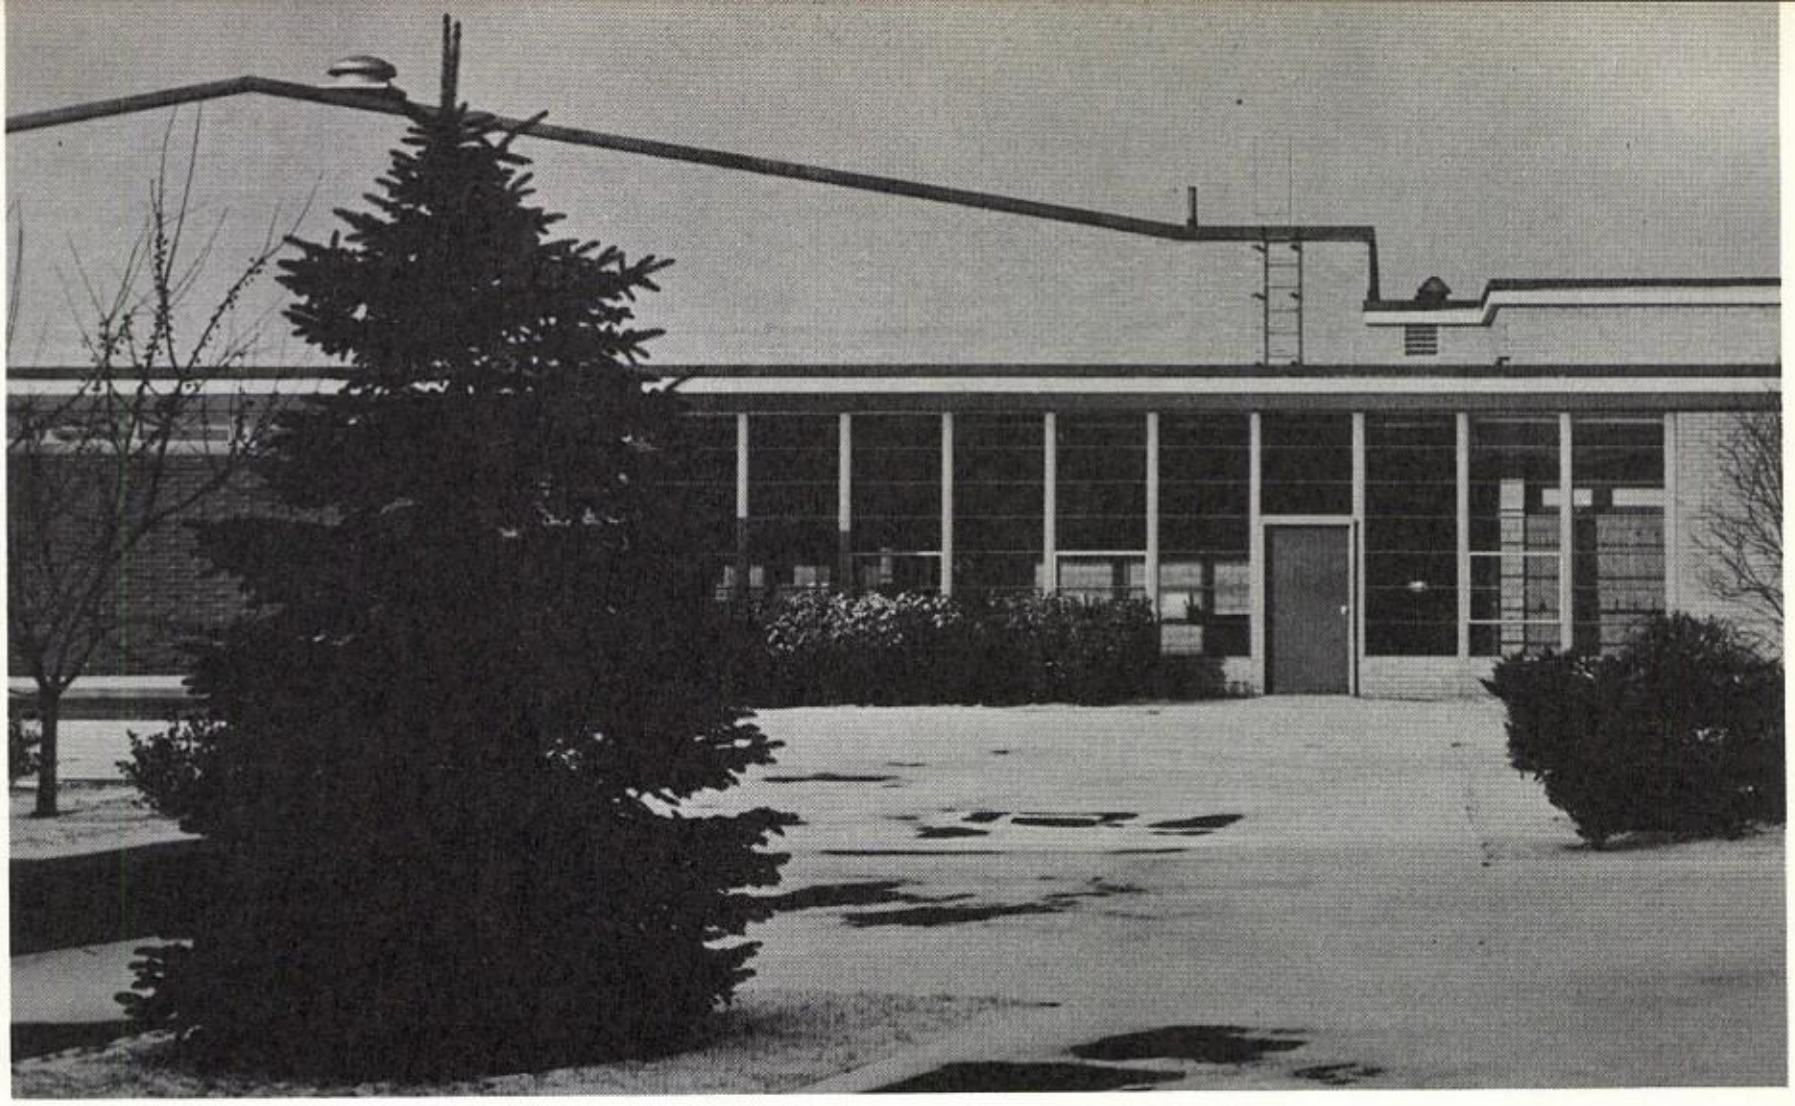
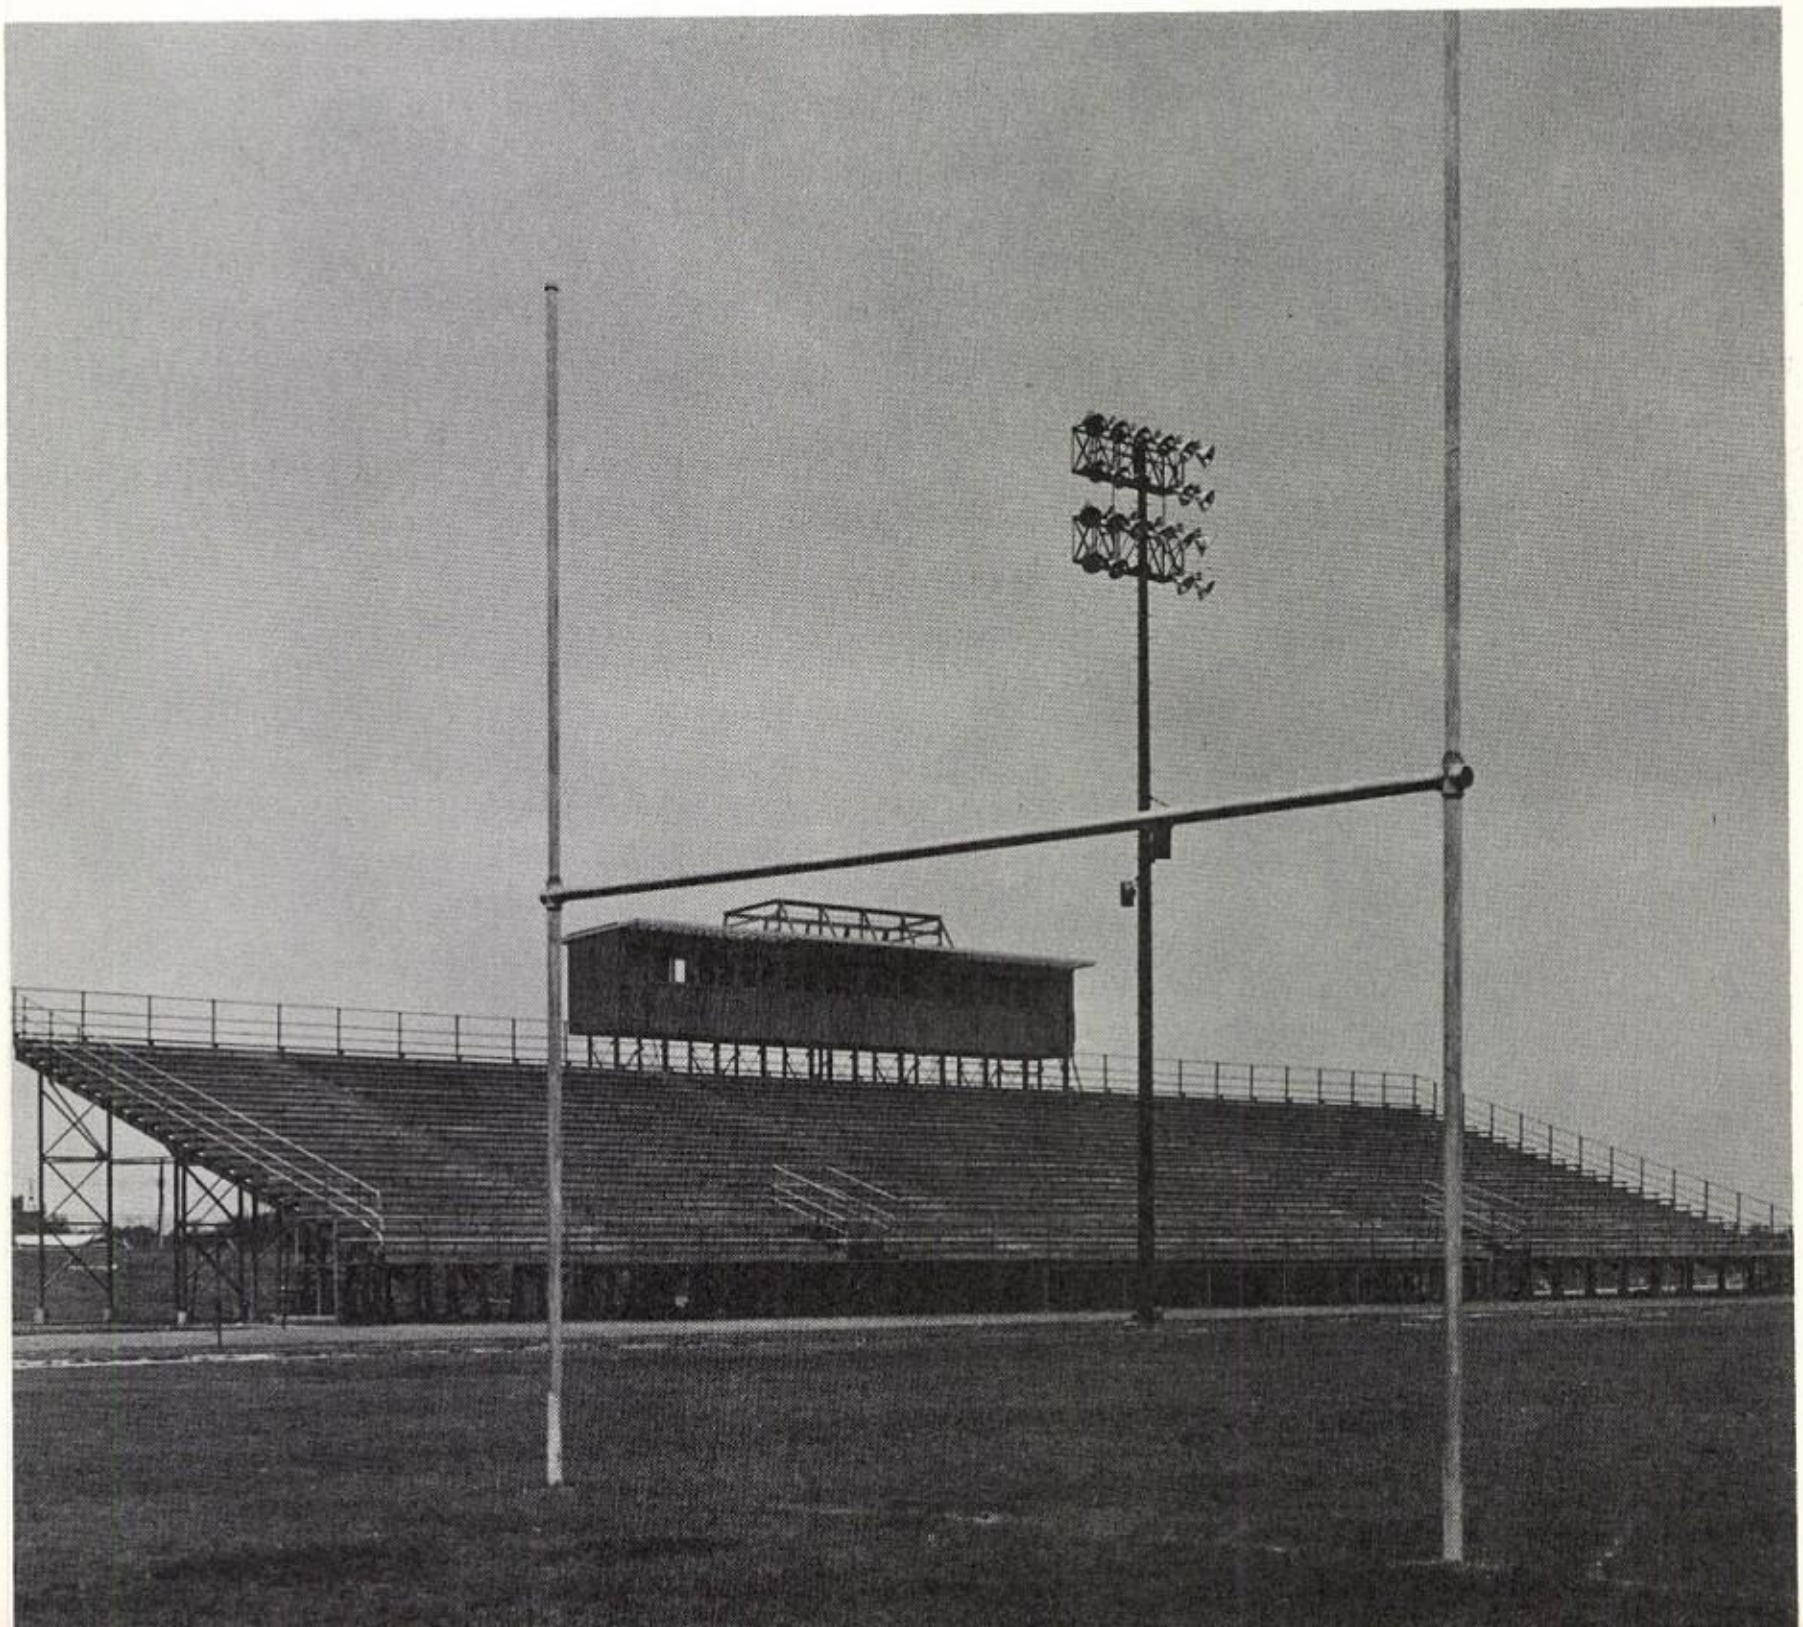
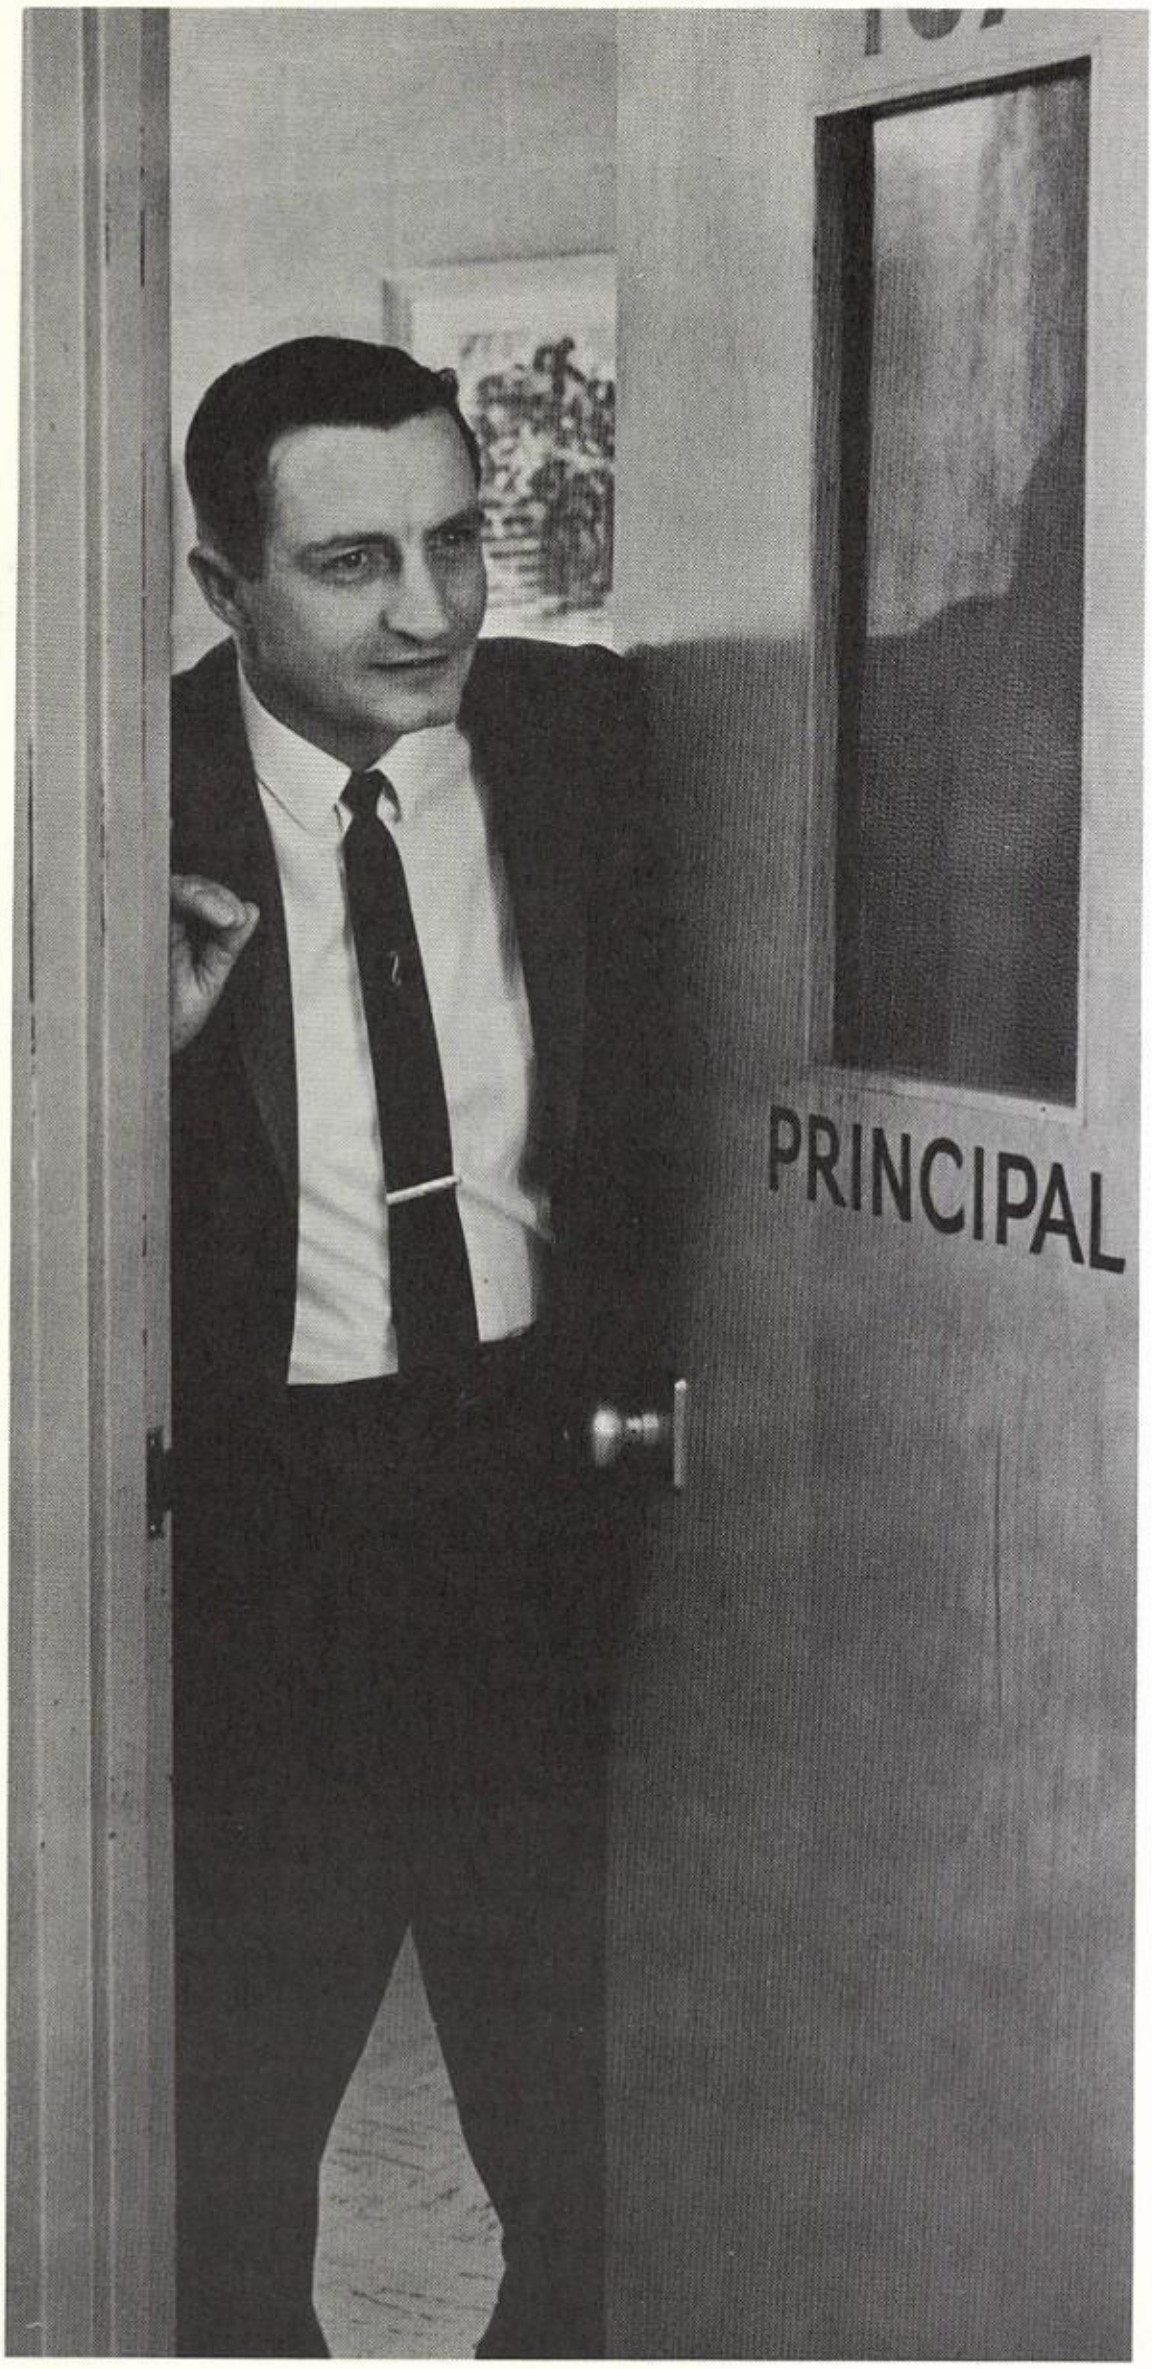
High school is a giant step toward adulthood, maturity, and responsibility. It offers a varied curriculum and outside activities to prepare the student to take this step.

Memories of high school are never forgotten. The Glea *records these memorable events of the school year.*





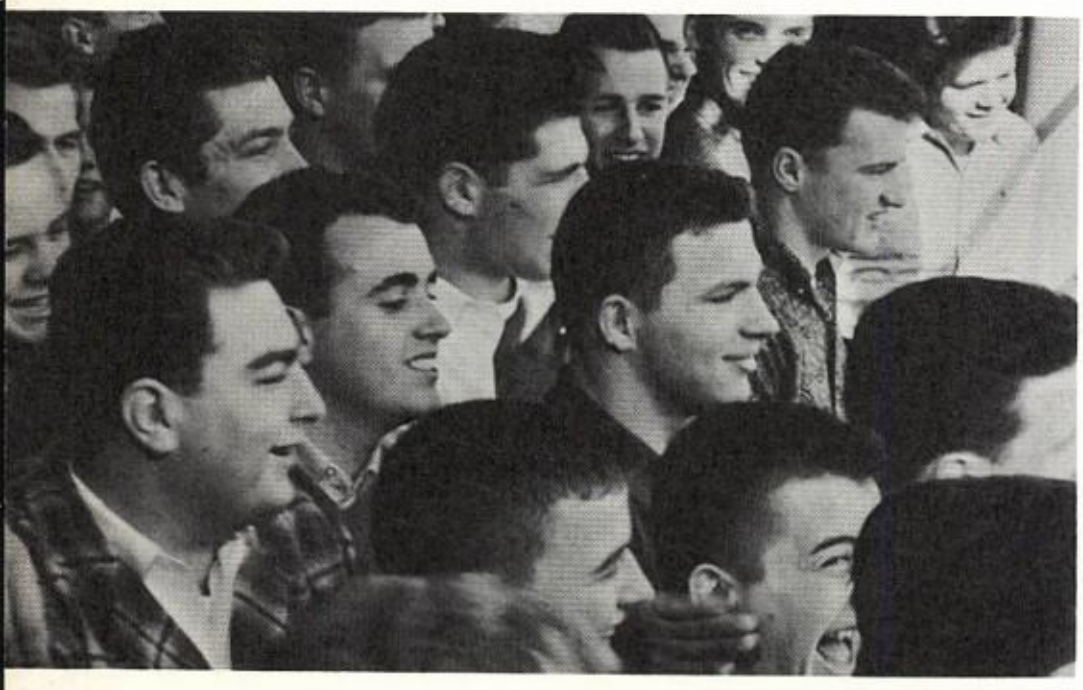


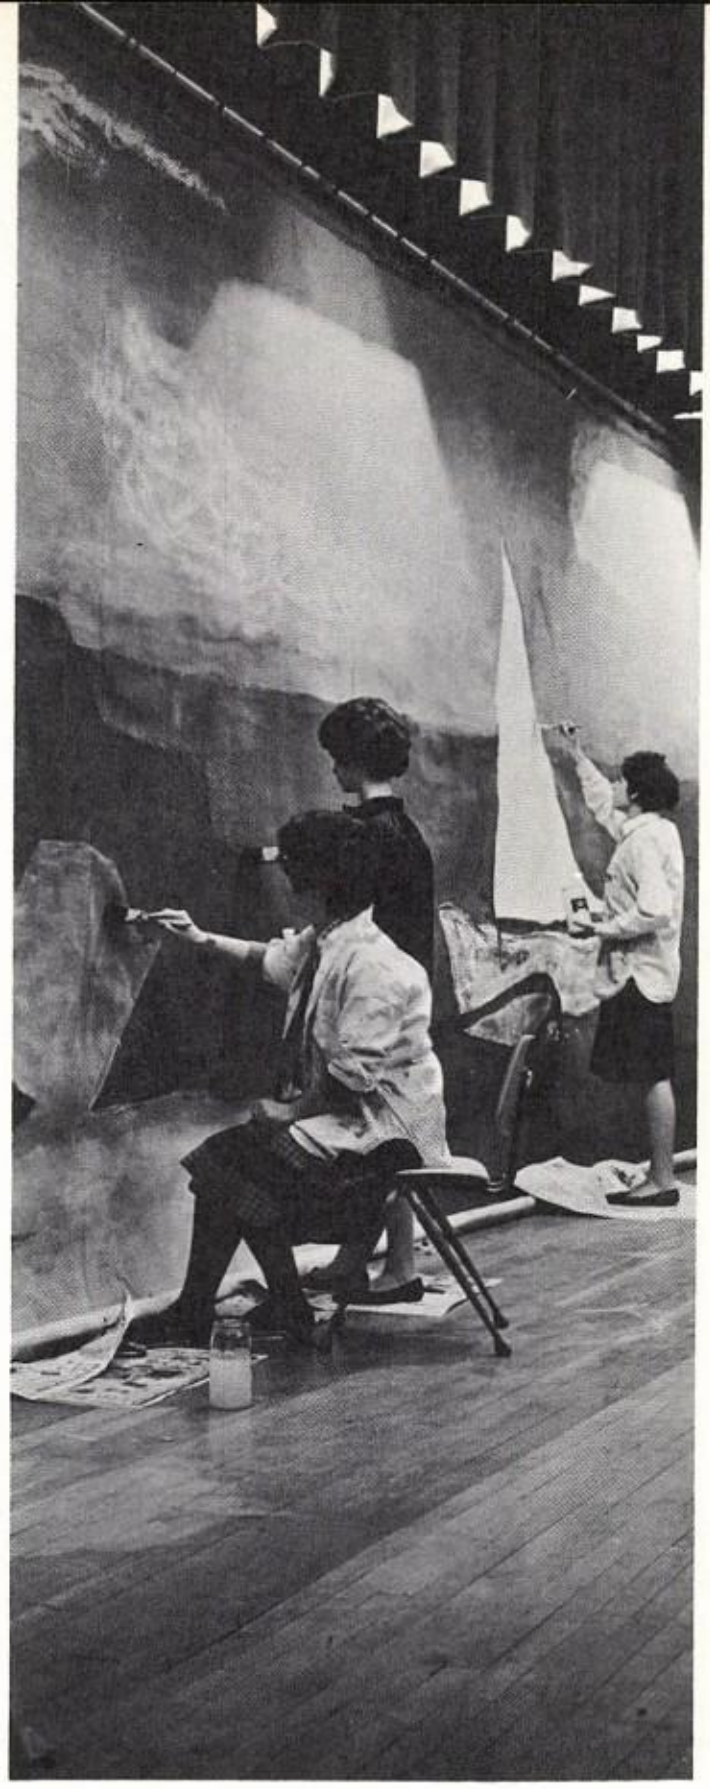


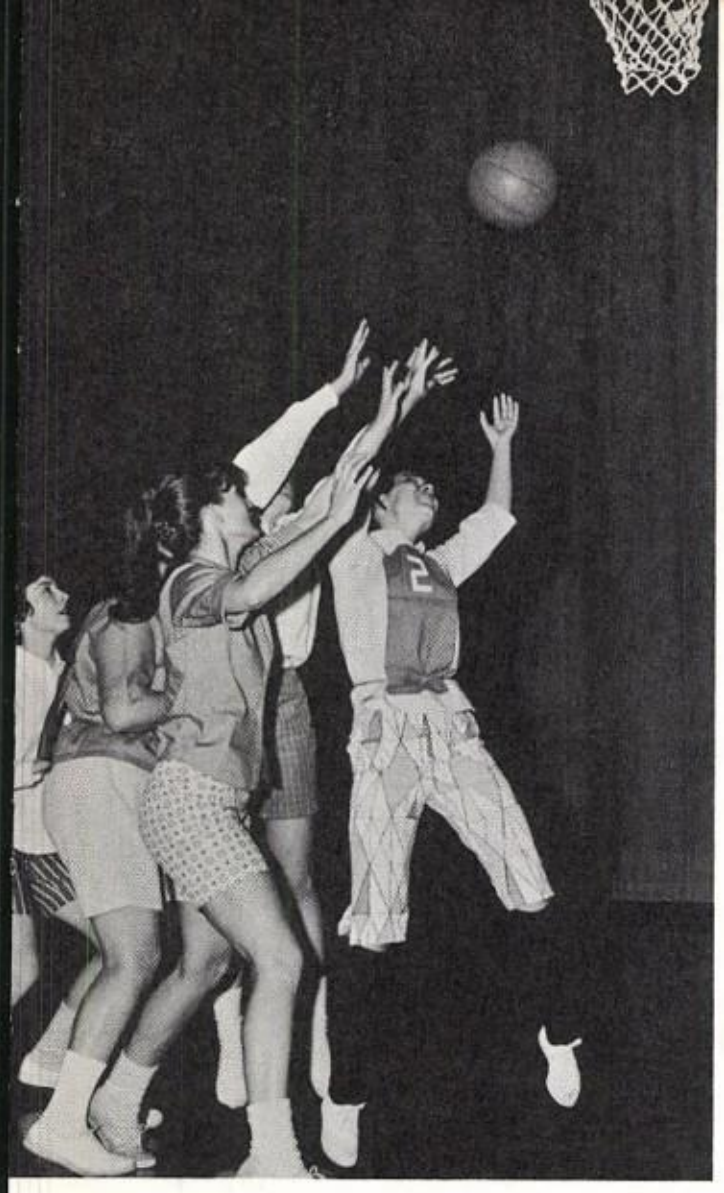
Outside of correcting students in study halls and generally keeping them in line, there is a side of the faculty which most of us don't realize. The faculty is responsible for something far more important to man than even discipline-knowledge! The knowledge which a student gains in his high school builds a foundation not only for further education but also finds for him his place in society. And so it is to the faculty that we give our praise and thanks for a job well done.

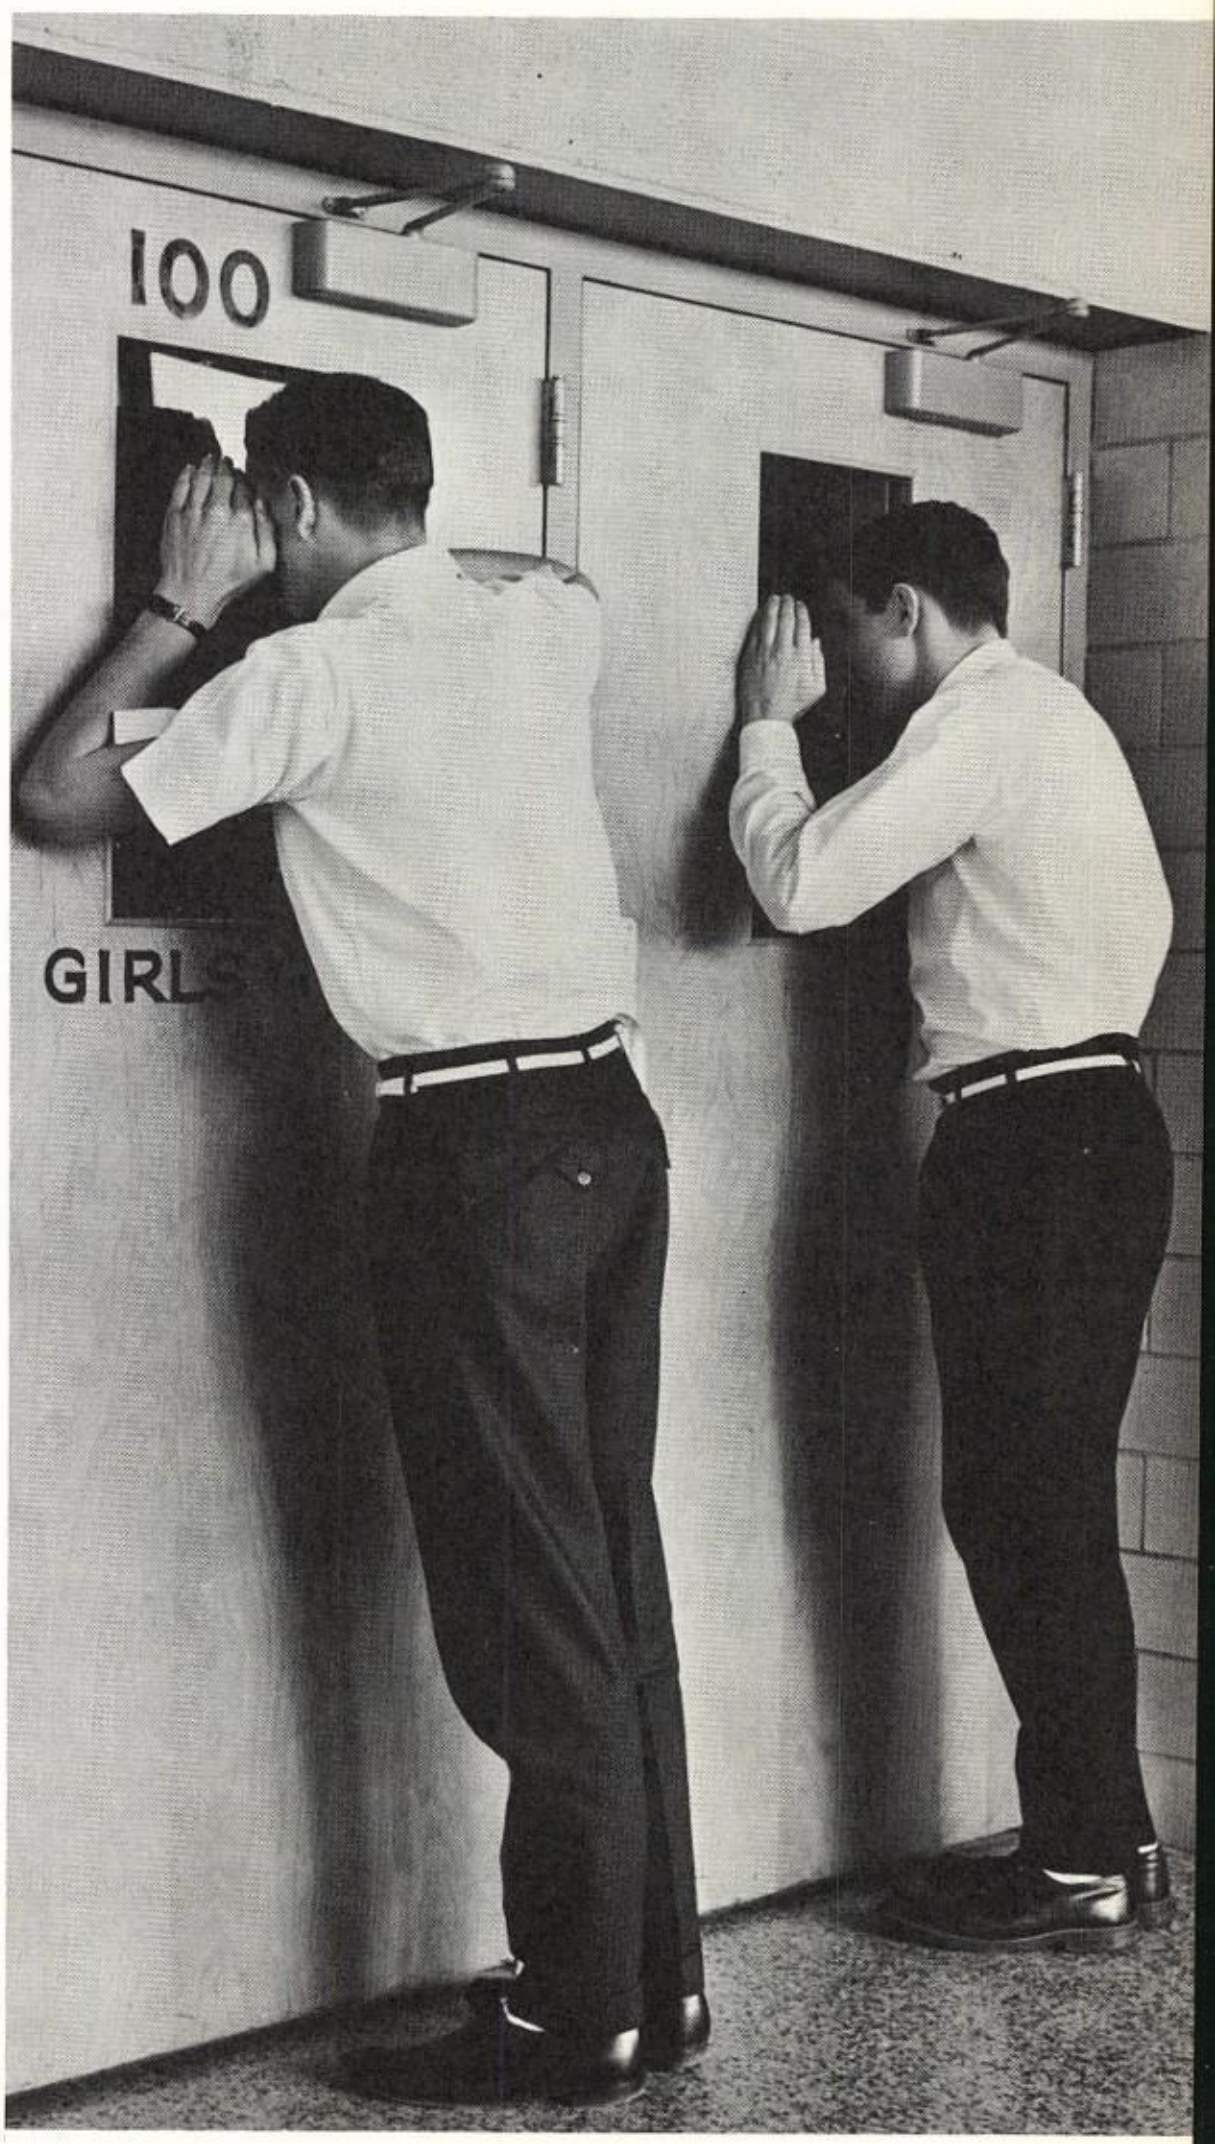
BIOLOGY

THE PLAIN DEALER
WEST WINS IN FINAL SECONDS, 31-30
Pipers Fall in Title Game, 120-104

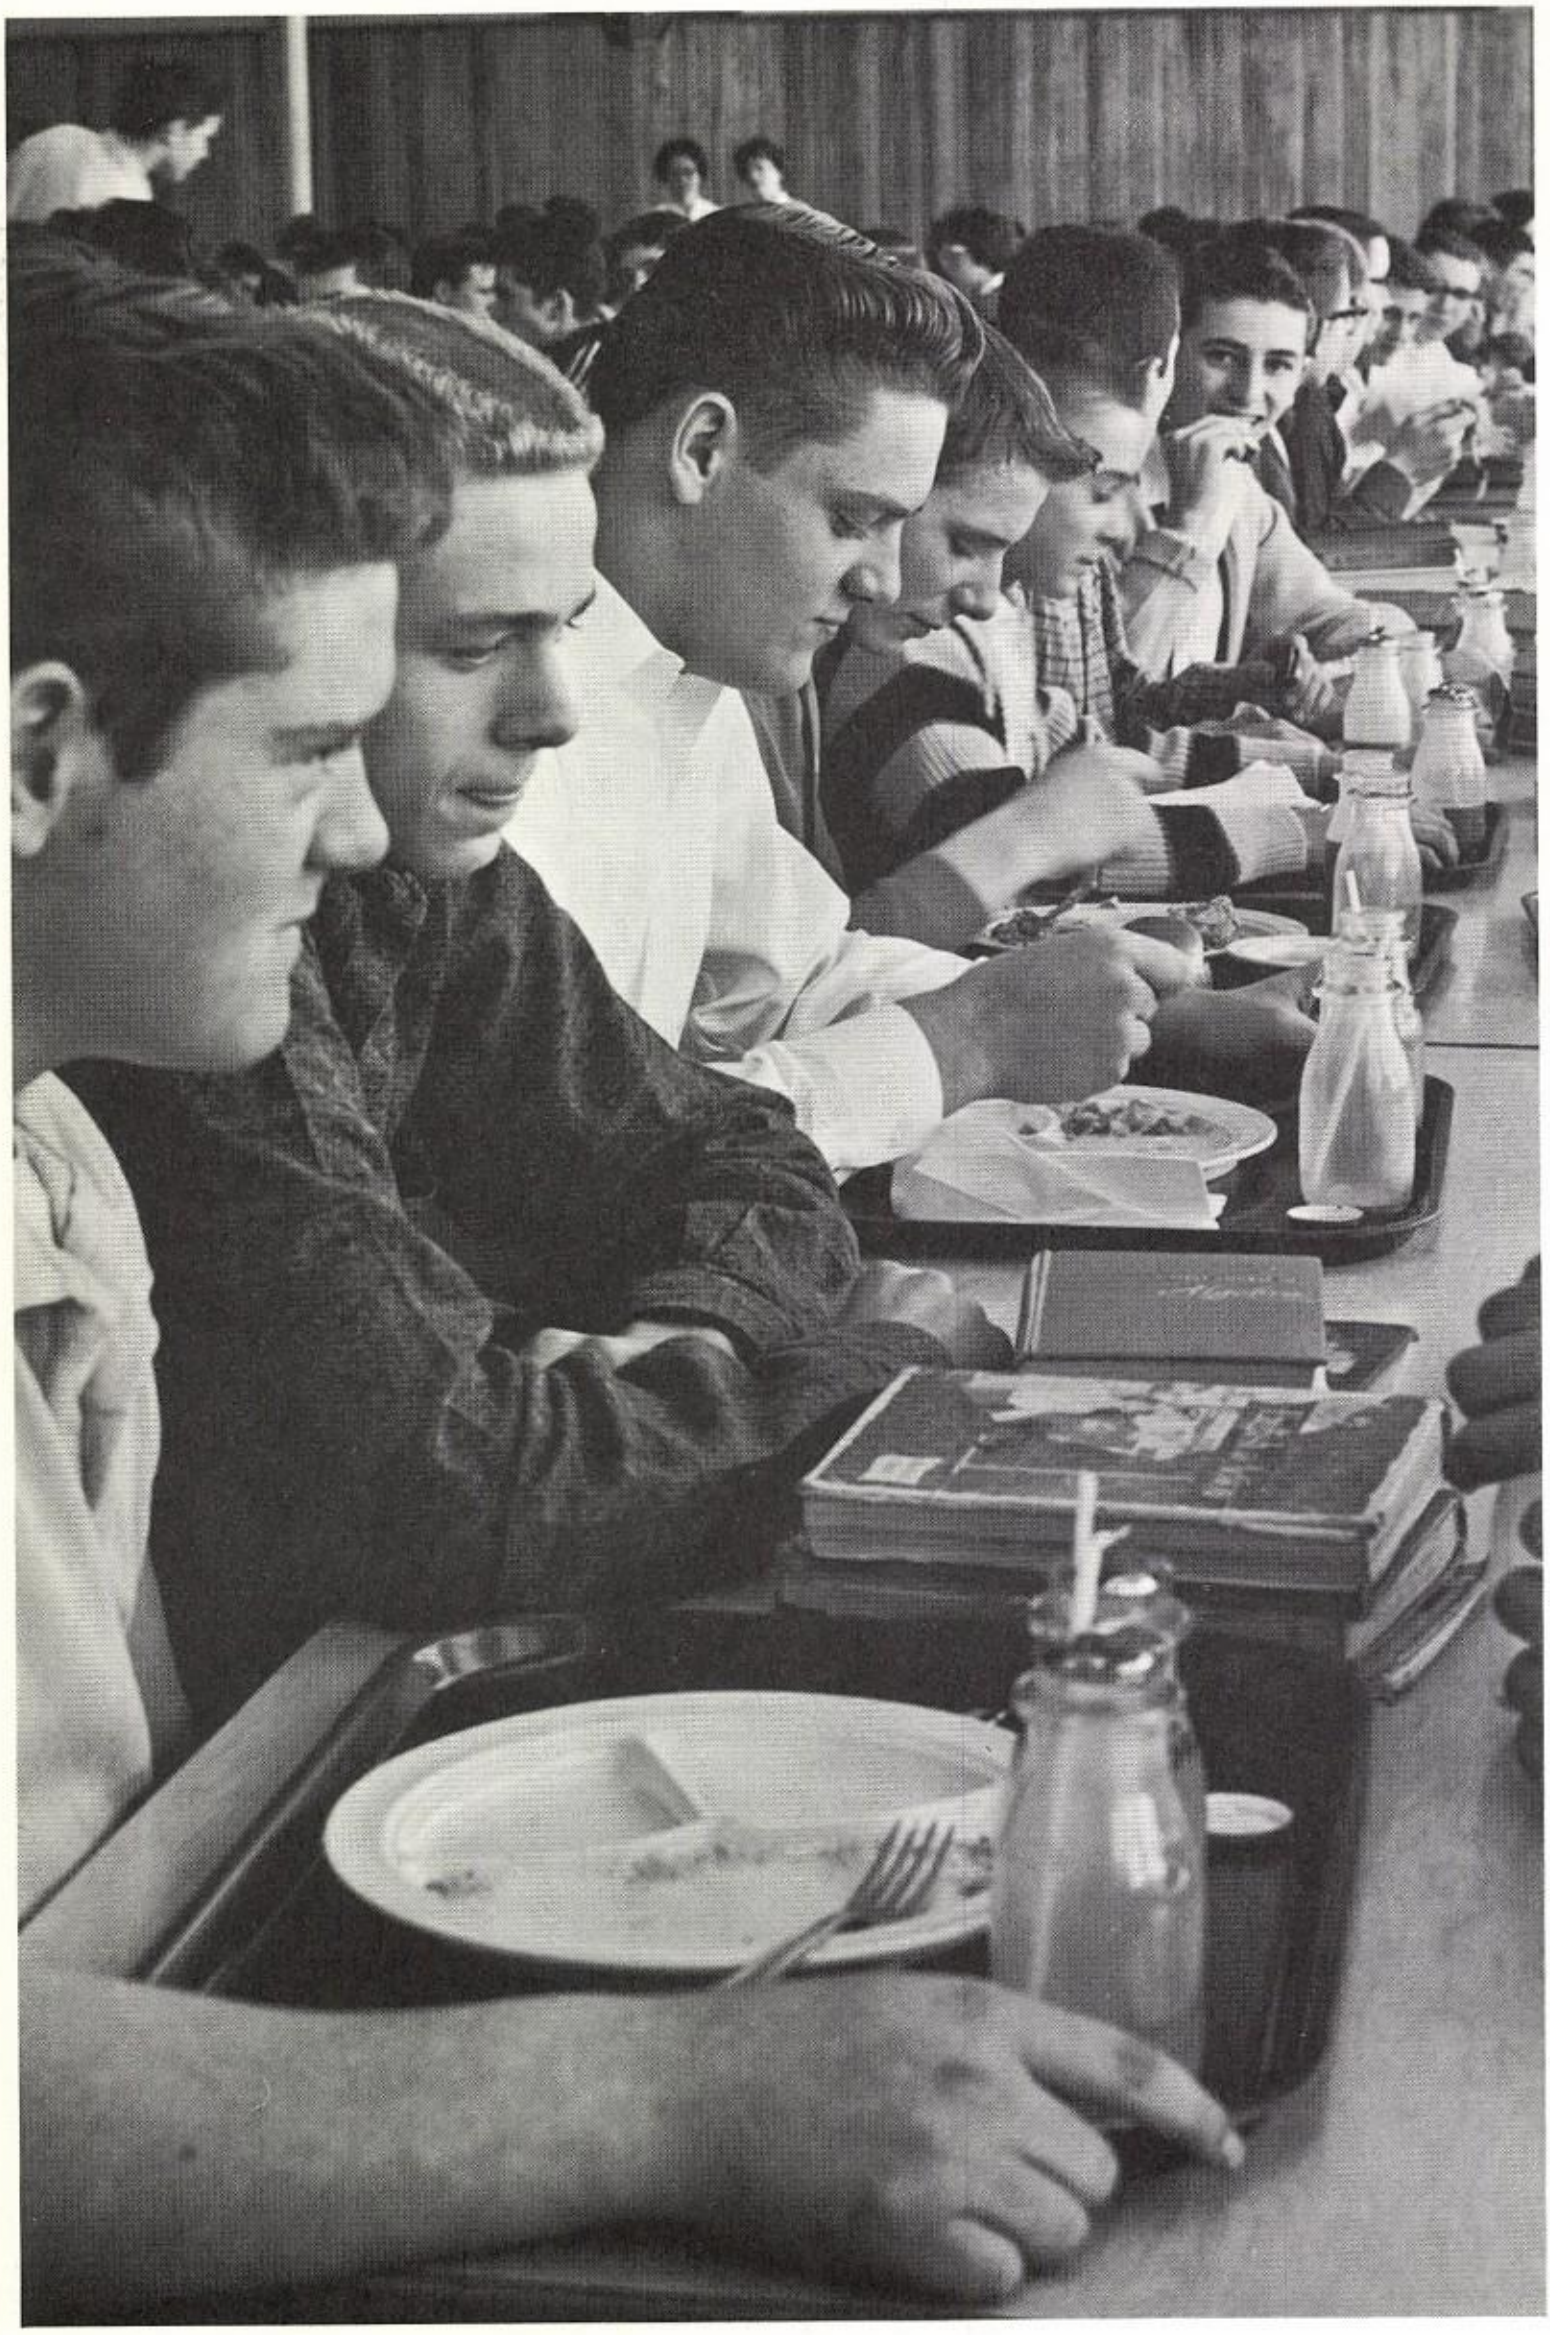






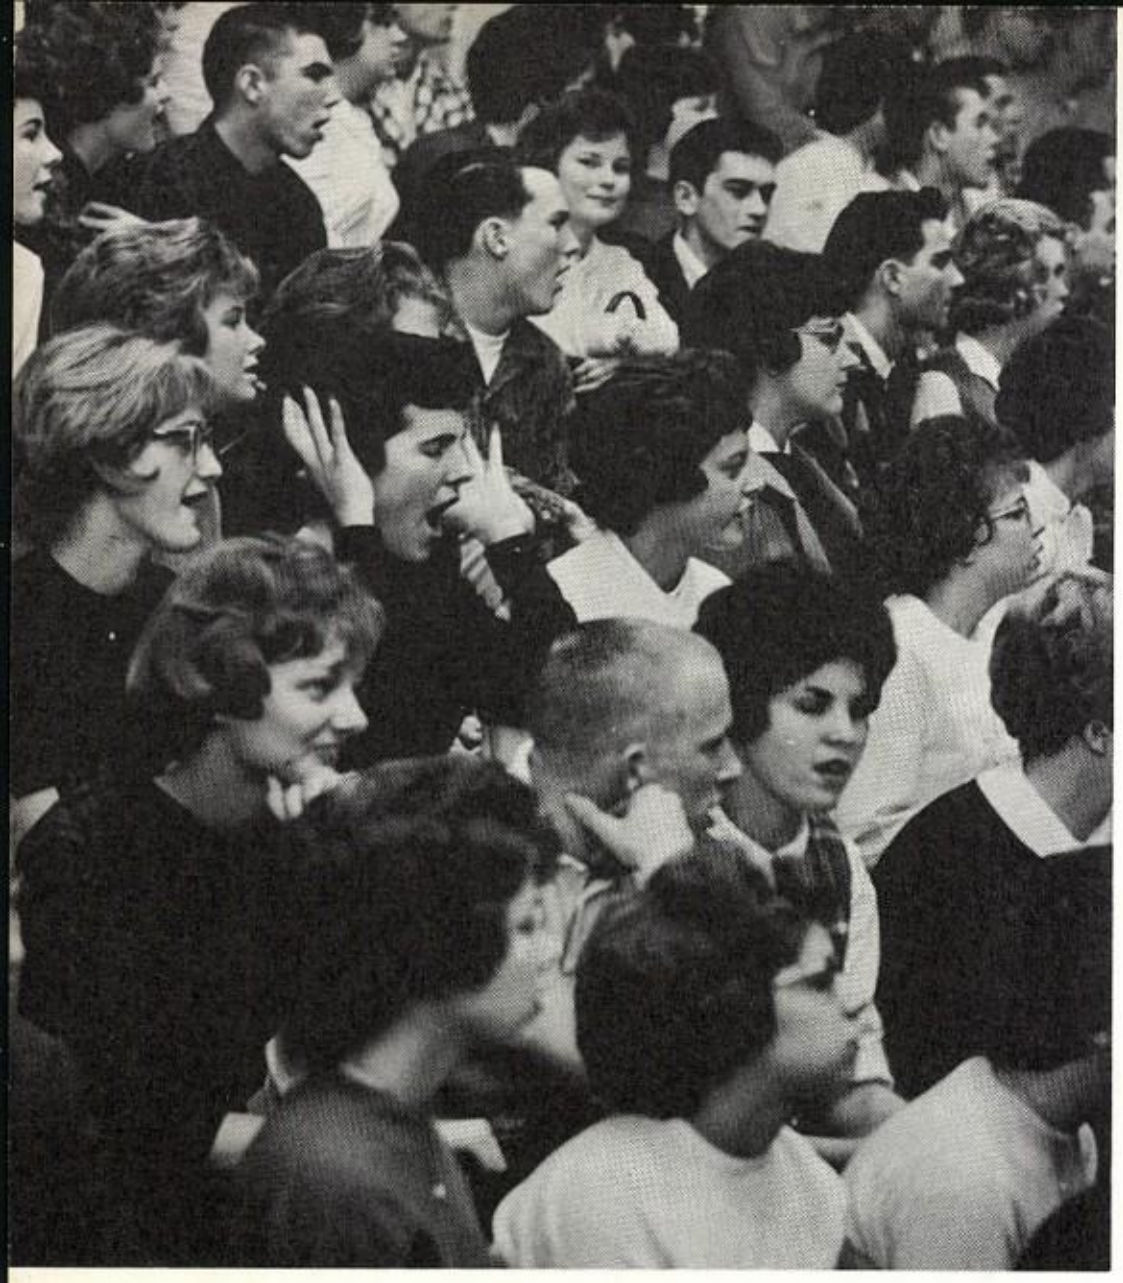


A host of clubs, organizations, and sports encourage the student body to delve into extra-curricular activities. There is one to match almost every talent, hobby, or interest. And if there isn't one existing, it can always be created. This year the Math Club and the Student Writers joined Glenwood's family of organizations.



The countdown is over. Finally the lunch hour comes. There is no more welcome sight than the cafeteria—a roomful of hungry scavengers, ready to devour just about anything in sight.

The lunch hour is a break in the daily routine. It is the time to relax ones weary brains and enjoy forty minutes away from note-taking and concentration.



The 1961 football team established the best season's record since Glenwood's birth. With renewed spirit, talented football players, and a fine coaching staff, we finished the season with a record of seven wins and three losses. One high spot of the season was a 15-14 win over North Canton, spoiling an undefeated season for the Vikings. We are looking forward to another fine season next year.

This year's basketball team supplied the student body and the community with many thrills and some surprising upsets during the season. Especially pleasing was their wonderful play during the Class AA tournament. They won the hearts of many basketball fans with the spirit and fight they showed in defeating Timken and Massillon before being edged by a tall McKinley Bulldog team. Congratulations to the team and coach for a fine season.

Heidi Pfouts, *Sophomore Attendant*

Halftime festivities during the Springfield game were rather special this year. Miss Patty Quinn was honored by the football team and the student body by being crowned 1962 Homecoming queen. Proud Dads escorted their daughters, the Homecoming court, to a throne where they received gifts and plenty of cheers from the crowd in the Glenwood stadium.

DINING
STUDY HALL

The study hall brings a conglomeration of students together for a variety of purposes. In order to avoid carrying that extra book home, some students will rush to get their homework completed, while on the other hand, there are those who regard study halls as a social period.

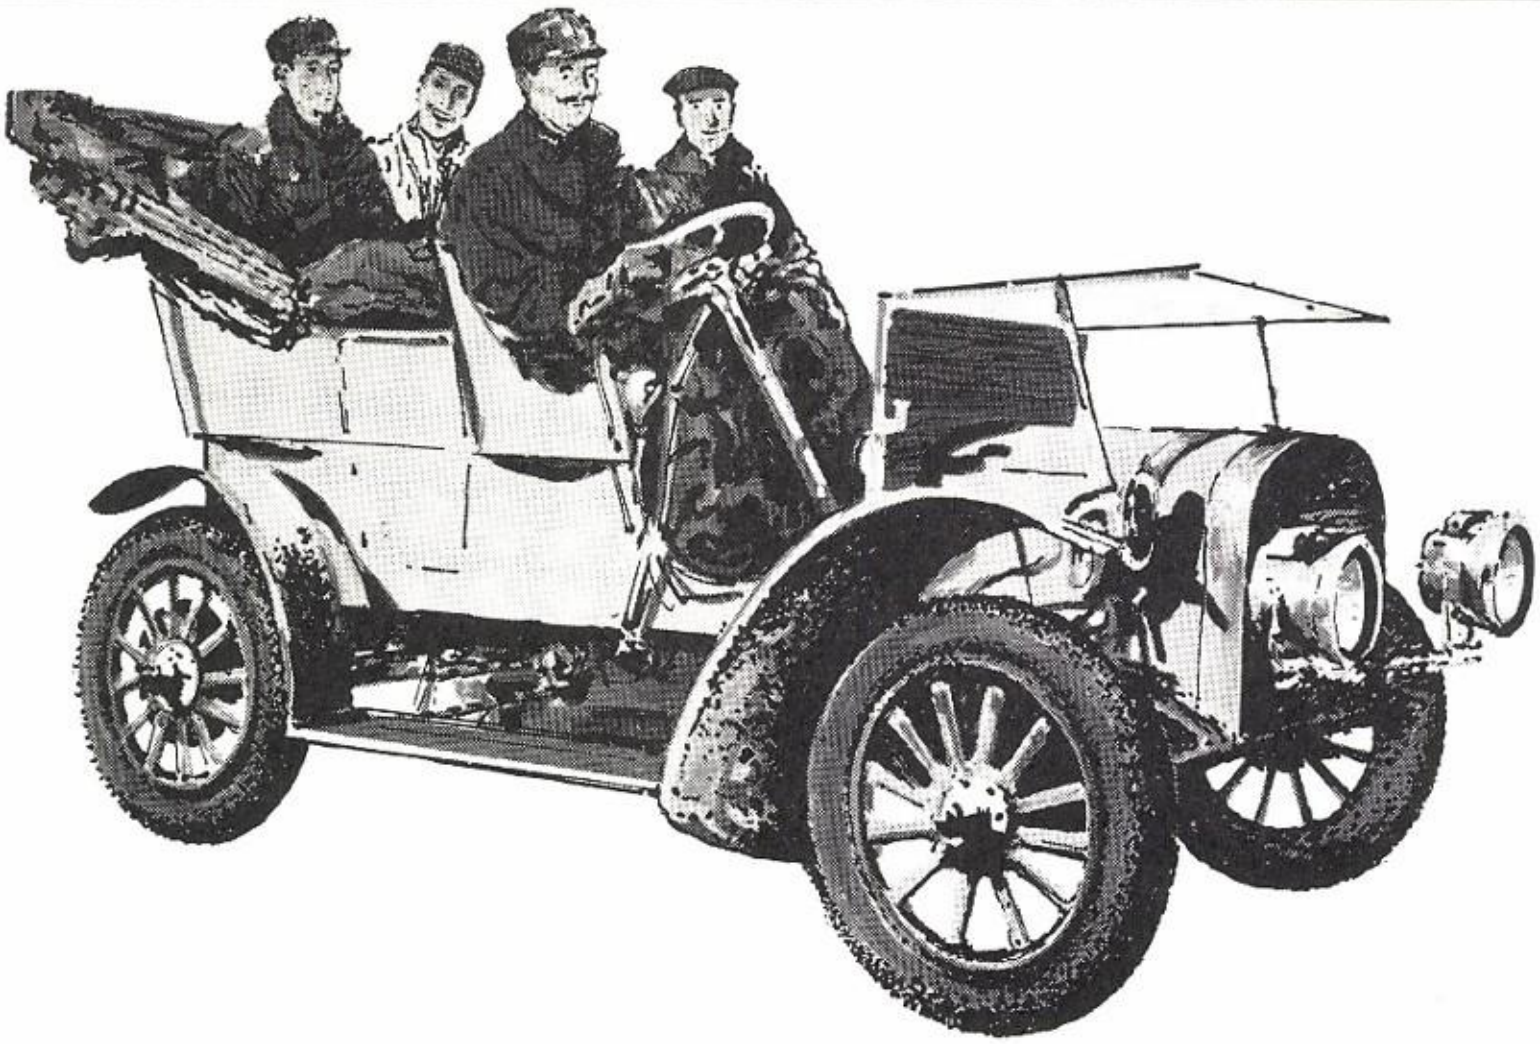
ADVERTISING AND PATRONS



In 1899, the first car equipped with Timken® bearings took to the road. Today, every American make of car but one rolls on Timken tapered roller bearings.

And there's a new kind of bearing in today's power cars. It's the latest step in Timken bearing engineers' drawing board to drawing board partnership with the auto industry. It's a smaller, lighter bearing to cut unsprung weight. A more uniformly precise bearing to cut warranty costs. Capacity packed to take the heavier loads of today's luxury cars. These bearings are made of the finest bearing quality alloy steel available. And we know steel. We've been in the steel business for 45 years. In fact, we've developed and manufactured steel for the transmissions and other vital parts in many of today's cars. Furthermore, Timken removable rock bits are helping to build America's highways for America's automobiles.

Timken Company employees have an important part in the success and progress of the automotive industry. In keeping millions of cars, trucks and buses rolling trouble-free, in giving you economical, carefree driving, mile after mile after mile.

Everything's changed but the name on the bearings
